Selection works everywhere

LexiLoop selectable text layer verification

Regular PDF text

Resilient reading tools preserve context while people explore unfamiliar words.
The selectable layer should align exactly with the visible canvas text.

Shortcut path

Select keyboard translation and press the shortcut without copying first.
The result should open in the personal center and record this PDF as its source.

Navigation and zoom

LexiLoop selectable text layer verification

Page controls

Move between pages with the toolbar or Page Up and Page Down.

Zoom from fifty to two hundred and fifty percent without losing selection.

Pronunciation

Search for pronunciation and use the speaker button beside the result.

Dictionary audio is preferred, with system speech as a reliable fallback.
